PROFESSIONAL SUMMARY

Recent graduate with a Bachelor's degree in Mathematics, proficient in statistical analysis, data visualization, and problem-solving. Have foundational knowledge in Excel, SQL, Power BI, Python, and R for data cleaning, analysis, and dashboard creation. Experienced in applying analytical techniques through academic projects and professional training. Seeking to contribute technical and analytical skills as a Data Analyst.

SKILLS

- **Python:** Pandas, NumPy, SciPy, Matplotlib
- **R:** Statistical Analysis
- **SQL:** Queries, Joins, Aggregation, Data Cleaning
- **Excel:** Data Cleaning, Pivot Table, Lookup Functions, Exploratory Data Analysis(EDA)
- **Power BI:** Power Query, DAX, Data Modelling, Data Visualization

TRAININGS AND CERTIFICATIONS

Applied Analytics & Technical Problem Solving Bootcamp
OpeniT Philippines, June 2026

- Applied **Excel** for data cleaning and EDA utilizing PivotTables, filtering, aggregation, and visualization to identify trends and patterns.
- Developed interactive **Power BI** dashboards to visualize KPIs, trends, and business performance, using DAX measures for custom calculations and metrics.
- Presented analytical findings and insights through data reports

Data Science Essentials with Python
Cisco Networking Academy, August 2026

- Applied **Python** for data analysis and EDA.
- Used **Pandas** and **NumPy** for data manipulation and numerical analysis.
- Used **Matplotlib** for data visualization.
